**CARLIFT II 4.0 W** VP 251114

## **CARLIFT II 4.0 W** VP 251114

The four post CARLIFT II 4.0 W lifts vehicles of up to 4.0 t. Its runway, which is finely adjustable independent of the cross beam, enables high-precision wheel alignment. The extra reinforced plates welded onto the runway guarantee optimum stability. The special runway profile and its reinforced cross beams ensure high flexural resistance.
