

LIFTING TECHNOLOGY PIT JACK

MPJ 16.5/750 1S HM VP 454275

MPJ 16.5/750 1S HM

VP 454275

The pit jack, which is mounted in a suspended position, lifts up to 16,5 t. The overhead rail pit jack, with deep-drawn chassis and long 750 mm stroke, is suitable for work with or without axle crossbeams and support systems. The manual hydraulic drive can be expanded with a pneumatic speed control function for fast piston rod movement. For lifting under load, an air motor can be additionally installed. For optimal pit adaptation, the chassis is adjustable by 140 mm.

PRODUCT DETAILS/ACCESSORIES

1-stage telescopic, rail-guided, suspended

Description:

Manual pit jack

with hand pump for load lifting

Specifically for wheel and brake works and dismantling smaller assemblies in conjunction with axle lifting beams and support systems for trucks and buses with 16.5 t load capacity

Control:

- Precision, user-friendly hand pump for fast stroke and lift
- Delicate and precision lowering of the pit jack with tried & tested system with integrated dead man's control

Design:

- For precise movement, the pit jack is rail-guided at the top edge of the pit
- Guarantees easy movement of the pit jack since all rollers are fitted with needle bearings crossways and lengthways

- Long total stroke of 750 mm to reach high-up units
- The pit jack is fitted with a downward deep-drawn P carriage for integrating an axle lifting beam at any height
- · Alternatively, a straight S carriage can be used too
- Variable modular carriage system for various pit widths (700 -1200 mm) in conjunction with different roller versions and clearance degrees for adapting to work pit circumstances
- Corrosion-resistant piston rods thanks to self-lubrication
- High-quality powder-coating protects against corrosive liquids and elevates quality look and feel on a lasting basis

Scope of delivery:

- · Pit jack with hand pump
- Deep-drawn P carriage and rollers for rails
- Standard support lugs 120 x 120 mm
- Operating instructions
- EC conformity certificate
- Colour: Jack base frame RAL 7040
 - Attachments and carriage RAL 7016

TECHNICAL DATA

Load capacity (CE)	16,500 kg
Stroke distance	750 mm
Lifting levels	1
Min. pick-up height from roller slide rail	- 69 mm
Pit jack depth for roller slide rail	1070 mm
Max. lifting height above roller slide rail	681 mm
Slide rail width inner dimensions	700 1200 mm
Carriage adjustable range	140 mm
Roller rest width	40 mm
Roller rest incline	8 % / 4.6°
Max. parallelism deviation slide rails	10 mm
Roller diameter (at the flange)	80 (95) mm
Support diameter inside/outside	45/70 mm

Technical Datasheet / 06/02/2023

LIFTING TECHNOLOGY **PIT JACK**

MPJ 16.5/750 1S HM VP 454275

TECHNICAL DATA

Piston rod diameter	70 mm
Oil quantity/quality	9.51/HLP-D 10
Drive	Manual hydraulic
Operating pressure	254 bar
Weight	239 kg

ACCESSORIES

	IES - CARRIAGE	VZ 975569	Pads with mushroom support N with pin diameter 45 mm MODEL: PS-N
